ARUN MANJUNATH

Computer Science Engineering Student | Software Developer

Bangalore, India | arunmanjunath.cse@gmail.com | linkedin.com/in/arun-manjunath | github.com/arunmanjunath

PROFESSIONAL SUMMARY

Dedicated and motivated Computer Science Engineering student with a solid grounding in Data Structures, Algorithms, Object-Oriented Programming, and Full-Stack Web Development. Passionate about engineering clean, efficient software solutions using Java, Python, and C. Proven track record in competitive problem-solving and building impactful academic and personal projects. Actively seeking software engineering internship and entry-level roles.

TECHNICAL SKILLS

Programming Languages:	Java (Core & OOP, Collections), C, Python, JavaScript (ES6+)
Web Technologies:	HTML5, CSS3 (Flexbox/Grid, Responsive Design), Vanilla JS, Modern REST APIs
Core Computer Science:	Data Structures & Algorithms, Object-Oriented Design, DBMS & SQL, OS, Computer Networks
Tools & Platforms:	Git, GitHub, VS Code, Linux/Bash, MySQL, Postman

FEATURED PROJECTS

Algoverse - Algorithm & Pathfinding Visualizer *[JavaScript, HTML5 Canvas, CSS3, Data Structures]*
- Built an interactive web tool visualizing sorting algorithms (QuickSort, MergeSort) and pathfinding (Dijkstra, A*).
- Implemented step-by-step state animations, variable speed playback, and custom maze generators.

CampusConnect - Academic Portal & Student Management System *[Java, JDBC, MySQL, HTML/CSS, MVC Architecture]*
- Engineered a multi-role student management portal supporting attendance tracking, grade analytics, and courses.
- Implemented secure authentication, relational database normalization, and optimized SQL queries.

CodePulse - Developer Task & Productivity Suite *[Python, Flask, SQLite, JavaScript, Responsive UI]*
- Created an intuitive task management dashboard with Kanban workflows, Pomodoro timers, and progress analytics.
- Designed RESTful endpoints with full CRUD capabilities and persistent local storage synchronization.

Network Packet Sniffer & Traffic Inspector *[C, Linux Socket Programming, TCP/IP Protocols]*
- Developed a low-level packet capture application using raw sockets in C to decode ethernet, IP, and TCP headers.
- Provided real-time terminal diagnostics and traffic metrics calculation for local network interfaces.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science & Engineering **2022 - 2026**
Visvesvaraya Technological University (VTU) / Engineering College **CGPA: 8.85 / 10**
- Coursework: Data Structures & Algorithms, OOP with Java, DBMS, Operating Systems, Computer Networks.

Pre-University Course (PCMC) - Science Stream **2020 - 2022**
Department of Pre-University Education, Karnataka **Score: 94%**

CERTIFICATIONS & KEY ACHIEVEMENTS

- **Java Programming & Object-Oriented Design Masterclass** *-- Coursera / Oracle Verified*
- **Data Structures & Algorithms Mastery in Java & C** *-- GeeksforGeeks / LeetCode (500+ Solved)*
- **Python for Data Structures & Algorithms** *-- University of Michigan Online*
- **Hackathon Finalist - CivicTech Innovation Challenge** *-- Inter-Collegiate Hackathon 2024*
